During my graduation I didn't get many things in my college. But when I look back after 30 years if there is one thing which I have to single out which was responsible for what I am today delivering convocation address; it is the college, education, my teachers and my upbringing at home." He concluded the speech saying that he was very fond of animation films. "Everyone knows & has watched spider man movies. The spider man once in every film shows his face and that face is often seen of a British or of an American. Let's make this nation so strong that when the next spider man film is made the face of the man would be that of a student from Kohinoor Business School".
